EDUCATION

Vellore Institute of Technology, Bhopal – B.Tech CSE – CGPA 9.07	2023 – ongoing
Shri Shikshayatan School, CBSE, Kolkata – 12th	89.3% 2023
Shri Shikshayatan School, CBSE, Kolkata – 10th	94.6% 2021

SUMMARY

Third-year **B.Tech Computer Science** student at **VIT Bhopal** with strong proficiency in **Java** and **RESTful APIs**. Experienced in **full-stack development** (**React.js**, **Node.js**, **MongoDB**, **PostgreSQL**) and **machine learning** (**Python**, **PyTorch**). Solved **100+ Data Structures and Algorithms** problems on **LeetCode**. Skilled in **teamwork**, **problem-solving**, and **technical communication** with proven project experience in **web apps**, **AI systems**, and **ML research**.

SKILLS

Languages: Java, JavaScript, Node.JS, Python, HTML, CSS
Technologies: React JS, LangChain, Node JS, REST APIs
Cloud/DB: Git, GitHub, Bash, AWS, MongoDB, MySQL, PostgreSQL
Interpersonal: Code Debugging, Technical Writing, Communication

EXPERIENCE

Johns Hopkins University <i>Hackathon</i>	2025 – 2025 <i>Certificate VIT Bhopal</i>
- Directed a regression-based ML system using Python, NumPy, Pandas, and Matplotlib to analyze pupil images for autistic children with 91% accuracy. - Built a React, Flask Application for eye image capture and real-time visualization of 4 regression predictions. - Evaluated model on pupil image dataset from 20 participants, using Python, Pandas. and Matplotlib.	

PROJECTS

Glam Guide <i>React, Tailwind, Node.js, MongoDB, AWS</i>	Live GitHub
- Engineered a wardrobe management app with 4 services in React, Redux, and Tailwind, enabling users to upload and manage clothing inventory stored in MongoDB. - Implemented fashion quiz service to improve fashion knowledge using RESTful APIs, with scoring out of 10. - Designed season- and occasion-based outfit recommendations using Flask, rule-based algorithms, NumPy, and Pandas, sourcing from 1000+ clothes via Flipkart/Amazon APIs.	
Hindi Language Tutor <i>Next.js, TypeScript, Prisma, PostgreSQL, Speech APIs</i>	Live GitHub
- Developed an AI-powered Hindi learning platform with Next.js and TypeScript, supporting 5+ personalized lessons and progress tracking. - Integrated speech recognition APIs to deliver pronunciation feedback, improving learner accuracy by 90 %. - Composed 3 gamified features with Mongoose ORM and PostgreSQL, enabling achievements, leaderboards, and user engagement.	
Clarity News <i>React, TypeScript, Vite, Gemini API</i>	Live GitHub
- Created a mental health-focused platform using React, TypeScript, and Vite to deliver AI-curated, personalized news feeds. - Prepared search, filtering, and regional customization with caching for improved performance. - Optimized performance by introducing caching, reducing repeated API calls and speeding up page loads for users.	

COURSES & CERTIFICATES

NPTEL Introduction to Machine Learning	
Bits and Bytes of Computer Networking – Coursera	NPTEL Coursera
Software Engineering Job Simulation – JPMorgan Chase & Co	Link
Web Development Bootcamp – Udemy	Link
